

Please note the following information on the proper disposal of used batteries:

You must not dispose of batteries and rechargeable batteries in household waste. As an end user, you are legally obliged to return used batteries. These can be returned to any suitable collection point.

We are also obliged to take back used batteries free of charge. Used batteries can be returned on site or by post (with sufficient postage) to our logistics location:

TouriSpo GmbH & Co. KG
SportFits Lager
Ebenäcker 2a
94121 Salzweg
Germany

Information on the meaning of the markings on batteries:

= Disposal must not be carried out in household waste (separate collection).

Cd = Battery contains more than 0.002% cadmium

Pb = Battery contains more than 0.004% lead

Hg = Battery contains more than 0.0005% mercury
